Selecting the Best Business VoIP Provider for Hosted PBX Service

June 28, 2013

By [Rajani Baburajan](#), TMCnet Contributor

Voice over Internet Protocol (VoIP) is witnessing explosive growth. Hosted PBX ([News - Alert](#)) service is a great application of VoIP as it allows businesses to enjoy a wide array of communications features at a fraction of the cost of the traditional communications service.

VoIP solutions providers have contributed greatly for the growth of the industry. Providers like REVE Systems are offering solutions including [hosted softswitch](#), iTel Mobile Dialer Express, iTel Mobile Hybrid Dialer, iTel Mobile Call through Dialer and more.

As companies increasingly turn to hosted PBX, the market is getting more competitive. There are many VoIP providers offering different types of VoIP packages. Choosing the right hosted PBX provider has been always a challenge to businesses and individual users.

To help customers choose the right hosted PBX service, My VoIP Provider has listed top five business VoIP providers that offer hosted PBX service. The five companies selected by My VoIP Provider are Jive, Ironton Global, Vocalocity, RingCentral ([News - Alert](#)) and 8x8.

Jive's hosted PBX service extensions come in unlimited form or metered form, depending on the preference of the business. Jive's hosted PBX service comes with caller ID, music on hold, call routing, dial-by-name directory and call recording. The company serves government and educational clients.

Ironton Global offers hosted communication that is specifically designed to help small and mid-sized businesses upgrade to top-class infrastructure and communication. Their [hosted PBX service](#) is fully integrated and includes voice, messaging, conference calling and call mobility. Ironton Global also offers hosted Internet faxing, hosted auto-attendant and hosted disaster recovery.

Vocalocity ([News - Alert](#)), known for its cheap hosted PBX services, offers extensions at \$14.99/month. Recently, Vocalocity incorporated mobile extensions that connect to the hosted office PBX enabling businesses to stay connected with remote workforce.

RingCentral offers hosted PBX service to businesses of all shapes and sizes.

RingCentral has three major plans to fit small to large businesses. For small businesses with 2-19 users, RingCentral offers a plan for \$29.99/month per

extension. Mid-sized businesses with 20-99 users can choose the \$21.99/month per extension plan, and large businesses with 100+ users can choose the \$19.99/month per extension plan. RingCentral also includes a few other useful hosted services such as IP faxing.

8x8 ([News](#)  - [Alert](#)) is an ideal choice for businesses with international locations. With 8x8, Inc's Unlimited Extension plan, businesses have unlimited calling within the U.S., Canada, Puerto Rico, Guam, U.S. Virgin Islands, France, Ireland, Italy, Spain, and the United Kingdom for only \$29.99/month per extension. For more access to more countries, 8x8, Inc also offers a Global Extension plan for \$79.99/month per extension. With this users can make cheap calls to over 40 international countries like France, Hong Kong and Sao Paulo.
