

WHY IS IRONTON GLOBAL A BETTER SIP PROVIDER?

- The company is 104 years old and extremely well established
- The company is profitable, and aggressively growing
- Nimble company, allows for quick turnaround of services with dedicated porting dept.
- The company is an ILEC, a CLEC and an ITSP with over 100,000 access lines across multiple states and Canada
- We are a facilities based TDM & VoIP carrier delivering FIVE-9's (99.999% uptimes) reliability for over 2 million calls a day and have been for decades!
- We have been tested on dozens of IP PBXes
- Triple redundancy architecture: SIP to TDM to public internet
- Geo-redundancy NY to Chicago
- Geo-redundancy PA to West coast
- Key account references: McDonald's, St Luke's Hospital, State Farm, and thousands others
- Best call quality in the industry with auto codec negotiation
- A superb agent program (wholesale and retail) with dedicated channel managers and a century+ of experience behind them
- For every SIP trunk, you get 2 inbound and 1 outbound trunk*
- Disaster recovery plans
- Integrated E911 and 411
- A wide variety of SIP plans ranging from month to month to 5 year terms
- SIP products ranging from unlimited trunks (just pay 3 cents a minute) to unlimited LD in the U.S, Canada, Puerto Rico and 50 other countries
- International and domestic Toll Free and DIDs
- High Definition reservationless and on demand conference bridge available (with Toll Free and DIDs available)
- EFAX services: Inbound eFax to PDF + the ability to install an ATA to connect traditional fax machines*
- 24x7 Bi-lingual customer care center

***works when used directly as SIP not through an ATA device**

***Please ask us about other service we offer**
